# AUSTRALIAN INTERSTATE QUARANTINE

A TRAVELLER'S GUIDE

Quarantine Domestic

CHECK WHAT YOU'RE CARRYING. PENALTIES APPLY.

## ENJOY YOUR TRIP AND LOOK AFTER AUSTRALIA

#### December 2013

#### PLEASE NOTE:

This document is a guide only for private interstate travellers.

Commercial importers and exporters must consult with state authorities for full information.

# Help us protect our agricultural industries and environment from pests and diseases.

Use this simple guide before you travel and keep it with you. It will help you check what you can and can't take across state and quarantine borders and avoid on-the-spot fines.

#### CONTENTS

State and quarantine borders	3
Key	3
NSW (including ACT)	4
Northern Territory	6
Queensland	8
South Australia	10
Tasmania	12
Victoria	14
Western Australia	16
Some of the major threats	18
Further information	19

#### STAY UP TO DATE:

Quarantine requirements may change as new pests, diseases and weeds are detected.

For the most up to date information, visit the Quarantine Domestic website **www.quarantinedomestic.gov.au** or telephone 1800 084 881 during business hours Mon-Fri. This QR code can be used to access the website.

#### AUSTRALIA'S DOMESTIC QUARANTINE RULES

Pests, diseases and weeds can travel with you as you visit different areas of Australia. There are restrictions on what you can take as you cross state and quarantine borders within Australia. Travellers face on-the-spot fines for taking prohibited items across borders.

#### Check before you travel

It's always good to check any restrictions that might apply to your trip. You can also check restrictions online at **quarantinedomestic.gov.au** or by ringing Freecall 1800 084 881(business hours Mon-Fri)

#### Eat it or bin it

If you reach a border with produce that can't be taken across, eat it or bin it. There are interstate quarantine bins at domestic airports, ferry terminals and state and quarantine zone borders. You must dispose of any restricted products at that point. That way you can be sure you're not giving a pest or disease a free ride into new areas.

#### The risks

Pests, diseases and weeds can be spread from one part of Australia to another through the movement of:

- plant or plant products
- fruit and vegetables
- animals or animal products
- soil
- agricultural machinery and other equipment
- recreational equipment.

Following the rules about moving these items will help to minimise the risk to Australia's unique environments and valuable agricultural markets.

#### **AUSTRALIAN STATE BORDERS**

Please see **www.quarantinedomestic.gov.au** for a detailed map of Australian guarantine borders.

#### KEY TO THE TABLES

#### NO 🗙

You **cannot** carry this item with you when travelling to this state or territory.

#### ASK 🛦

You **need** to obtain an appropriate permit or certificate or provide more information to carry this item with you when travelling to this state or territory. Please contact the relevant authority indicated for the destination state or territory.

#### YES 🖌

You **can** carry this item with you without restriction when travelling to this state or territory.

#### TRAVELLING WITHIN NEW SOUTH WALES/AUSTRALIAN CAPITAL TERRITORY

#### **Banana Protected Area**

Mid-north coast and Richmond-Tweed regions. Do not bring banana planting material into this area.

#### Greater Sunraysia Pest Free Area (PFA)

Part of the far west and Murray regions. Do not take fruit (including capsicum, chilli, tomato and eggplant) into the PFA. Quarantine roadblocks and fruit disposal bins are strategically placed throughout NSW.

#### Phylloxera Exclusion Zone

All of NSW except for Albury/ Corowa and the Sydney Basin. Do not take grapevines, cuttings or budwood into this zone.

#### Rice Pest and Disease Exclusion Zone

Most of the Murrumbidgee and Murray regions. Do not bring rice plants, grain such as milled or brown rice, or rice products into this zone.

#### Seed Potato Protected Area

Parts of the south-eastern, central west and northern regions. Do not bring potato planting material into these areas.

### DESTINATION: NORTHERN TERRITORY

Northern Territory

Western Australia

For more information on carrying the following items into Northern Territory, please contact:

- Plants or plant products 08 8999 2118
- Livestock 08 8999 2030
- Live fish 08 8999 2144
- Native birds and other wildlife 08 8995 5008 or 08 8999 4486
- Aquatic pests 08 8999 2126 or 0413 381 094
- Fisheries 08 8999 2144

Note: No plant or plant product, whether listed or not, is permitted entry if found to be affected by a pest or disease.

#### TRAVELLING WITHIN NORTHERN TERRITORY

Movement of plant products into and/or out of the following zones is regulated

#### Ti Tree Fruit Fly Exclusion Zone (FFEZ)

The Ti Tree FFEZ extends from Tennant Creek to Alice Springs. Do not take fruit (including capsicum, chilli, tomato, eggplant, cucumber, zucchini and squash) into the FFEZ.

#### Adelaide River

Restrictions apply to fruit and vegetables when travelling south from Darwin to prevent the spread of the pest melon thrips.

The following produce must not be carried south along the Stuart Highway beyond the Adelaide River township:

- beans
- capsicum
- chilli

- cucumber
- eggplant
- melons
- mango fruit and mango plants (unless treated against leaf hopper)
- okra
- pumpkin
- silverbeet
- squash
- tomato
- zucchini.

- Native plants, birds and wildlife Environment and Heritage Protection 1300 130 372

#### TRAVELLING WITHIN QUEENSLAND

Movement of plant products into and/ or out of areas within Queensland is regulated.

The whole of the state is a pest quarantine area for bananas. Do not take banana plants, fruit, soil or items that have been in contact with banana plants into Queensland. For more information about the following quarantine areas, please contact the DAFF customer service centre on 07 3404 6999.

- Banana Pest Quarantine Area
- Cape York Peninsula Pest Quarantine Area
- Fire Ant Pest Quarantine Area

- Mango Leafhopper Pest Quarantine Area
- Papaya Ring Spot Quarantine Area
- Phylloxera Exclusion Zone

   do not take grapes, grape vines, cuttings, budwood or soil from within 100m of a living grape vine into this zone.
- Sugarcane Pests Quarantine Area.

#### TRAVELLING WITHIN SOUTH AUSTRALIA

#### Kangaroo Island

Kangaroo Island has a Ligurian Bee Sanctuary and a Potato Protected Production Area. Carrying honey, bees and bee products onto the island is prohibited. Potatoes are also prohibited unless they have been washed or brushed free of soil and are in new packaging.

#### Riverland of South Australia

Do not take fresh, unprocessed fruit and fruiting vegetables (including capsicum, chilli, tomato and eggplant) into the Riverland of South Australia without an itemised receipt from an SA retail outlet or a plant health certificate.

#### South Australian Quarantine Checkpoints

Quarantine stations and fruit disposal bins are strategically placed throughout South Australia. Mobile quarantine stations can operate anywhere and at anytime within South Australia.

### DESTINATION: tasmania

Please examine the listed products carefully. Although broad terms such as 'fruits and vegetables' are used, exceptions may apply.

For more information on carrying the following items into Tasmania, please contact:

- Plants or plant products and seafood 03 6165 3777
- Fish, fish products and fishing/diving equipment (marine and freshwater) - 03 6165 3777
- Dogs (treatment for hydatid tapeworm prior to arrival) 1800 684 215
- Livestock/pets/domestic animals (including livestock restrictions applying to Bass Strait Islands Quarantine Vet 03 6165 3777
- Native wildlife and aviary birds 03 6165 4305
- Restricted fin-fish www.dpipwe.tas.gov.au/importinganimals

Note: Taking rabbits to King, Flinders and other Bass Strait Islands is prohibited.

#### TRAVELLING WITHIN TASMANIA

#### Tasmanian quarantine checkpoints

Plant and animal quarantine examinations are conducted at all points of entry into Tasmania. On-the-spot fines apply for both commercial and non-commercial imports.

### DESTINATION: victoria

#### TRAVELLING TO VICTORIA

Please examine the listed products carefully. Although broad terms such as 'fruits and vegetables' are used, exceptions may apply.

For more information on carrying the following items into Victoria, please contact: **Department of Environment and Primary Industries (DEPI) Victoria** – 136 186 or visit www.depi.vic.gov.au/psb

- Plants, plant products or soil
- Animals (including honeybees)
- Weeds.

#### TRAVELLING WITHIN VICTORIA

Movement of plant products into and/or out of the following zones is regulated

#### Greater Sunraysia Pest Free Area

The Greater Sunraysia Pest Free Area (PFA) was established to protect fruit production areas along the Murray River from Queensland fruit fly. Do not take fruit or fruiting vegetables (including capsicum, chilli, tomato and eggplant) into the PFA. Fruit disposal bins are in place in the PFA and quarantine roadblocks may operate in this zone. Signs on major roads indicate when you are entering the PFA.

#### Phylloxera Control Areas

Control areas have been established in Victoria to prevent the spread of the grapevine pest phylloxera. Signs on major roads indicate when you are entering a Phylloxera Exclusion Zone or leaving a Phylloxera Infested Zone, and that restrictions on the movement of grapevines exist for each zone.

#### Potato Plant Protection Districts

Potato Plant Protection Districts (PPDs) are established around some Victorian seed potato production regions in order to reduce biosecurity threats. Signs on major roads indicate when you are entering a PPD and what restrictions on potato movement apply.

#### Toolangi Plant Protection District

The Toolangi Plant Protection District is a protected area in which plant breeding programs are conducted. The entry of plants for propagation into this area is restricted.

For more information about these zones, please contact DEPI Victoria on 136 186 or visit www.depi.vic.gov.au/psb

### DESTINATION: WESTERN AUSTRALIA

For more information on carrying the following items into Western Australia, please contact: **Quarantine WA** – 08 9334 1800 or followup@agric.wa.gov.au

- Bees, bee products, bee keeping equipment
- Fish, aquarium fish
- Plant or plant products
- Livestock and stock movement
- Travelling with exotic/non-native animals and insects
- Domestic travellers general enquires 1800 084 881.

Department of Parks and Wildlife (DPaW) – 08 9219 9831 or wildlifelicensing@dpaw.wa.gov.au

- Aviary birds
- Native animals (reptiles, birds, mammals)
- Native insects.

#### TRAVELLING WITHIN WESTERN AUSTRALIA

The movement of plant products into and/or out of the following zones is regulated

#### Carnarvon and Kununurra areas

Only certified bananas can enter Carnarvon area. Banana plants, leaves and soil must not be removed from the Carnarvon and Kununurra areas.

#### **Kimberley region**

Broccoli, lettuce and spinach is prohibited in the Shires of Broome and Wyndham East Kimberley from parts of Western Australia outside the Kimberley region, unless certified by Quarantine WA.

#### Ord River Irrigation Area

Uncertified citrus and stone fruit are prohibited entry into the Ord River Irrigation Area (Kununurra) from 1 April to 30 November. Uncertified cut flowers, foliage and leafy vegetables are not allowed out of the Ord River Irrigation Area (Kununurra).

#### Broome area

Uncertified palm plants and foliage are not allowed out of the Broome area.

#### Gin Gin and South-west

Potatoes imported into WA from another state/territory (except Tasmania) are not allowed entry into the potatogrowing areas of the state.

# SOME MAJOR THREATS

#### Red imported fire ant (Solenopsis invicta)

Threat: Red imported fire ants inflict a fiery sting, which may cause an allergic reaction. Invasions can make recreational areas unusable and damage native flora and fauna and pets.

Red imported fire ant. DAFF Qld (Peter Green)

Spread: By the movement of infested materials such as pot plants, soil, mulch and timber.

#### Grape phylloxera (Daktulosphaira vitifoliae)

Threat: The feeding of the phylloxera aphid on grapevine roots causes vines to decline and possibly die. It can also affect market access for the viticulture industry.

Phylloxera aphids. DEPI Vic

Spread: By the movement of grapevine rootlings, equipment and soil from infested areas.

#### Queensland fruit fly (Bactrocera tryoni)

Threat: The feeding of Queensland fruit fly larvae (maggots) makes fruit inedible, lowering production and severely affecting trade to sensitive Queensland fruit flies. DEPI Vic markets.

**Spread:** By the movement of uncertified host fruit out of infested areas. Most fresh fruits, including capsicum, chillies and tomatoes, are fruit fly hosts.

#### Green snail (Cantareus apertus)

Threat: Green snail can significantly damage a wide range of plants, including most leafy vegetables, cereal crops, lupins, pasture grasses and native plants.

Green snail. DAF WA

**Spread:** By the movement of host plant material.

#### Potato cyst nematode (Globodera rostochiensis)

Threat: Potato cyst nematode (PCN) feeds on the roots of potatoes, tomatoes and related crops, reducing crop yields and resulting in trade restrictions.

PCN-infested potato roots. DEPI Vic.

Spread: By the movement of host plants or of soil attached to plants, bulbs, advanced trees or agricultural equipment.

#### **European house** borer (Hylotrupes bajulus)

Threat: European house borer (EHB) larvae chew through the wood of seasoned coniferous timber and can cause major structural damage to buildings and furniture.

(L-R) EHB larva, male adult and female adult. DAF WA

Spread: By the movement of infested host timber, including building materials, wooden pallets and pine furniture.

Further information on pests and diseases of quarantine importance is available on the Quarantine Domestic website www.quarantinedomestic.gov.au
